

1)K-Love provides encouragement and hope in my community. The music played, the on air personalities and the general attitude and mission of the broadcasts provide so much more than any other station I have listened to.

2)K-love has provided this community hope in a time where little hope is to be found.If K-Love were to be replaced with a LPFM Broacaster we would loose the commercial free and encouraging broadcast that so many of us have grown to love and appreciate.

3) K-Love provided this area with commercial free radio during a time when commercials dominate all the other radio stations. Very little entertainment can be derived from the commercial stations that is not full of demeaning and lude comments.

Thank you for listening
